## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 01/14/2008 has been entered.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on 03/17/2008 and on 05/02/2008 were filed after the mailing date of the notice of allowance on 10/09/2007. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

### ***Allowable Subject Matter***

3. Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

On 10/09/2007, a notice of allowance was issued. Included with the issued notice of allowance, was an examiner's statement of reasons for allowance.

Since applicants amendments have not changed the scope of the claims, claims 1-16 are allowed for the reason previously submitted on 10/09/2007.

Also, an IDS was submitted on 03/17/2008. With the IDS, a new reference (i.e., EP 0964595) was submitted. Below is a brief analysis of that newly submitted reference.

Thomas et al. (Thomas), EP 0964595, discloses an evaluation of a channel by handover measurements wherein a radio resource management process is initiated based on any change in the network. After analyzing the characteristic of the change, i.e., measurement of the characteristic, i.e., signal quality measurement, delay spread, uplink characteristics, the RRM process is aborted so that the mobile station can return to previously used traffic carrier.

As can be see above, Thomas does not disclose any language regarding the process of invoking, analyzing, an executing RRM algorithm, nor does it disclose the treatment of the channel or radio link associated with these algorithms.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
